

A TPE Overmolding Design Seminar AT YOU WON'T WANT TO MISS!

Tuesday, June 20, 2006, 1:30 - 4:45 PM at NPE 2006

YOU MUST RESERVE ON-LINE!

www.npe.org/education

Participants include:

imagination at work

Demag Plastics Group

INJECTION MOLDING

You'll learn from leading industrial designers, molders, materials manufacturers and other notable speakers on how to design and process TPE overmolded products that "pop" off the shelf...and add value to your brand, drive sales and boost your name recognition in the marketplace. **And, learn about doing business in China, too!**

See the show in the morning and then come learn with some of the industry's leading global TPE experts and partners plus special presentations by two of the industry's leading plastic publication editors.

- Injection Molding magazine's Senior Editor Michelle Maniscalco is a **moderator**.
- GLS Corporation - A global leader in specialty TPE technologies and your host.
- Plastics News Editor/Associate Publisher Robert Grace is also a **moderator**.
- GE Plastics - The Global Leader in Innovative Engineered thermoplastics materials and technology.
- **SPECIAL:** Nypro Inc. Jim Buonomo, Corporate VP, China/India - largest custom molder in North America with operations in China.
- Demag Plastics Group - Foremost IMM technology for tomorrow's markets. Demag also has manufacturing operations in China.
- Experts from throughout the industry who are prepared to supply answers to your latest new product challenges.

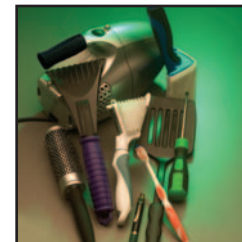

Win Valuable Door Prizes Too!

ATTENTION ATTENDEES: Submit your design challenge BEFORE THIS SEMINAR for the opportunity to obtain insight and solutions from the industry's foremost molding, materials and design experts. We ask you to submit your challenges prior to the beginning of the seminar.
